EconoGrade Series

AUTOMATIC GRADE CONTROL SYSTEMS

EconoGrade Series

EG1 on a 3 point hitch box blade

Single Elevation Control

The EG Series Laser Grade Control System provides accurate grading results in less time with less labor. With cutting edge features, the EG Series will put you in the driver's seat.

Typical Applications:

- House Pads
- Lot Leveling
- Concrete Subgrade
- Driveways

Elevation & Slope Control

The system is versatile, efficient, economical and durable with easy to use controls. The combination of the laser receiver and slope sensor give the operator the desired accuracy of both depth of cut and slope grade. Steep slope version also available.

Applications:

- Housing Developments
- Embankments
- Concrete Screeds
- Channels and Ditches

EG2-S on a tractor pulled box blade

EG2-D on a Kubota skid steer with box blade

Dual Elevation Control

Grade control systems for various skid steer attachments:

- Box Blade
- Grader Blade
- Dozer Blade
- Push Blade

EconoGrade Series

EG1-M on a small bulldozer

Bulldozer

The rugged design performs well in rough site grading applications. Single and dual receiver setups to work on all brands and sizes of dozers.

- Building Pads
- Runways
- Residential Subdivisions
- Commercial Sites

Box Blades of All Brands & Sizes

Dual receivers for accurate slope grading. The EG2-D comes with dual 360 degree receivers for maximum reception. The system is accurate down to 2 mm. With the ability to change on-grade position on the fly. Excellent for fine grading for concrete slabs. Compatible with most major brands of construction lasers.
